

# KORDIAN SKOWRON CV

Creating in any form has fascinated me and has been my goal since very young age. During my studies at SWPS University, I had the opportunity to delve into techniques from various design disciplines, and my passion lies in illustration and concept art. I intend to leverage my design knowledge to create works that stand out in terms of quality and originality. Working in the gaming industry, where I can bring my creativity to life for players, was always my dream, and I am ready for the challenges that come with it.
